Hyderabad

---

Experienced DevOps Engineer with over 5 years of hands-on experience in designing, implementing, and maintaining CI/CD pipelines, automating infrastructure provisioning, and ensuring the reliability and scalability of software applications. Proficient in a wide range of DevOps tools and technologies, including Docker, Kubernetes, Jenkins, Terraform, and Ansible. Strong background in cloud computing platforms such as AWS and Azure. Proven track record of collaborating effectively with cross-functional teams to deliver high-quality software solutions on time and within budget.

### Experience:

Senior DevOps Engineer

TechSolutions Inc.,

Cityville, XYZ June 2018 – Present

- Designed and implemented CI/CD pipelines for multiple web and mobile applications, reducing deployment times by 50%.
- Automated infrastructure provisioning and configuration management using Terraform and Ansible, resulting in improved scalability and reliability.
- Managed containerized applications using Docker and Kubernetes, optimizing resource utilization and ensuring high availability.
- Implemented monitoring and logging solutions using ELK stack and Prometheus, enabling proactive identification and resolution of issues.
- Collaborated with development and QA teams to streamline development workflows and improve code quality through automated testing and code analysis
- 

DevOps Engineer

InnovativeTech Solutions,

Citytown,

January 2016 - May 2018

- Deployed and managed cloud infrastructure on AWS, including EC2 instances, S3 buckets, and RDS databases.
- Developed and maintained Jenkins pipelines for automated build, test, and deployment processes, increasing development velocity.
- Implemented version control best practices using Git and GitLab, facilitating collaboration and code review among team members.
- Provided support and troubleshooting for production systems, resolving incidents and minimizing downtime.
- Conducted training sessions for development teams on DevOps best practices and tools adoption.

## **Certifications:**

- AWS Certified DevOps Engineer – Professional
- Certified Kubernetes Administrator (CKA)
- Terraform Associate Certification

## **Skills:**

- Continuous Integration and Continuous Deployment (CI/CD)
  - Infrastructure as Code (IaC) using Terraform
  - Containerization with Docker and Kubernetes
  - Configuration Management with Ansible
  - Cloud Platforms: AWS, Azure
  - Version Control Systems: Git, GitLab
  - Monitoring and Logging: ELK stack, Prometheus
  - Scripting and Automation: Bash, Python
-
